

SHIBA HUMANITY HUB

Whitepaper v2

People helping people
helping people.

Every transaction saves lives 

Since November 2025

Powered by \$NIBBLES & \$shopeseed on Shibarium

Real mercy. Real love. Real homes.

The Why

I cannot stop thinking about the quiet pain happening in this world right now.

Children waking up in hospital beds surrounded by machines and pain, still daring to dream of one simple thing that might bring them joy. Families forced to choose between paying rent and buying the medicine or equipment their child desperately needs. Orphaned and foster kids sitting alone on Christmas while the rest of the world celebrates. Senior dogs who gave their whole lives to people now spending their final days in cold kennels. Foster teens aging out with nothing but a trash bag and fear in their hearts.

These are not numbers. These are real human beings and real souls who deserve to feel seen, loved, remembered, and deeply cared for.

We built ShibaHumanityhub because we believe crypto can be so much more than speculation. It can be the most powerful, transparent, and loving force for good the world has ever seen.

Our mantra is simple:

People helping people helping people. Every single transaction quietly changes a life.

The Solution

We created two beautiful tokens that work together in perfect harmony.

\$NIBBLES powers the 17 global rescue, sanctuary, and animal healing programs.

\$hopeseed powers the 13 human impact programs that lift families, children, and communities who have been forgotten.

Together they create a living, breathing circle of mercy.

We are also proud to have secured the Shibarium Name Service handle **humanityhub*shib**.

While full integration is not yet live, we are preparing with care and will activate it the moment the infrastructure is ready. This handle perfectly represents who we are and where we belong on Shibarium.

Tokenomics & Ecosystem Synergy

We designed \$NIBBLES and \$hopeseed with one clear purpose: every transaction should quietly create real mercy in the world.

Both tokens share the same simple and transparent structure so the community always knows exactly where the impact is going.

Total Supply

- \$NIBBLES: 1,000,000,000 (1 billion)
- \$hopeseed: 1,000,000,000 (1 billion)

Transaction Tax (Buy / Sell / Transfer)

- Total tax: 2% per transaction
 - 1% → Automatic SHIB burn (permanent ecosystem give-back)
 - 1% → HumanityHub Impact Wallet (100% goes directly to the 30 live programs)

This modest tax was chosen with care. We believe it is fair, symbiotic, and aligned with our mission. Every time someone buys, sells, or transfers either token, a small portion quietly helps rescue animals, support families, and plant seeds of hope. While also reducing the overall supply of SHIB and adding strength to the ecosystem that supports us.

Why this structure feels right

Some may view any tax as taking away from holders. We see it differently. This small 2% is how we turn everyday transactions into lifelong impact. It creates a beautiful loop: the more the tokens are used, the more lives are changed and the stronger the SHIB ecosystem becomes. There are no team wallets, no hidden allocations, and no large unlocks. The tokens are designed for real utility and real giving from day one.

Token Utility

- \$NIBBLES → Directly powers animal rescue, sanctuaries, therapy dogs, disaster response, and senior care programs.
- \$hopeseed → Directly powers human-focused programs for children, families, and communities in need.

Holders of either token automatically participate in the circle of mercy. The more the tokens circulate, the more programs we can fund, expand, and sustain for years to come.

The Heart of What We Do

When you look at all 30 programs together, something beautiful and powerful emerges. They are not random acts of charity. They are a complete ecosystem of love that touches every stage of pain and turns it into hope, dignity, and joy.

The 17 \$NIBBLES programs focus on giving animals the second chances they deserve. From pulling dogs off death row, to lifelong sanctuaries, therapy work, disaster response, prison rehabilitation, golden years retirement, and even planting legacy Sequoia trees when they cross the Rainbow Bridge. Every program honors life that has been overlooked. The 13 \$hopeseed programs focus on human dignity. Making sure no child goes hungry on weekends, guaranteeing every foster kid a real birthday, creating Guardian Angel Wallets that grow with them, building Dream Rooms for kids trapped in hospital beds, providing lifelong support bridges for special needs families, and so much more. These programs remove impossible choices and give families real breathing room and peace.

Together these 30 programs create a full circle of mercy. Rescuing animals, healing humans, rebuilding pride, restoring hope, and connecting every donor to the real beautiful joy they help create. This is love in action.

Technology That Protects Dignity

We refuse to choose between transparency and privacy.

That is why we have integrated Zamas Fully Homomorphic Encryption technology. This allows us to keep sensitive data completely private and encrypted on chain while still proving that every single dollar is being used exactly as promised.

Donors get full visibility into the impact without ever exposing vulnerable families. This is the future of ethical and respectful charity. Transparent yet deeply private.

Our Path Forward

Phase 1-Foundation

Launch all core programs, complete the Zama integration, achieve full on chain transparency, and build the first living communities of \$NIBBLES and \$hopeseed holders who feel the love in real time.

Phase 2-Expansion

Scale the most impactful programs globally, deepen partnerships with hospitals, schools, shelters, and disaster response organizations, and grow the movement into a recognized force for good.

Phase 3-Global Scale

Create permanent sanctuaries, expand the bridge programs to reach millions of families and animals, and prove that decentralized on chain charity can outperform traditional systems in both impact and trust.

We move with urgency but never with haste. Every step is taken with love, care, and respect for the lives we serve.

How You Can Be Part of This Movement Right Now

Hold \$NIBBLES or \$hopeseed. Every transaction quietly funds real mercy. Sponsor a specific program and watch the impact in real time. Join the community on X and Telegram. Your voice matters here. Share the story. The more people who know, the more lives we can change.

This is not just a crypto project.
This is a movement of the heart.

People helping people helping people.

Every transaction saves lives.

Welcome to the circle of mercy.
Together we are building something the world has never seen before.

With deep love and unbreakable belief in humanity,

The ShibaHumanityhub Team
